SEQ DIGITAL ASSEMBLY

BOLD.
DIGITAL.
LEGACY.

Unlocking SEQ's Digital Future Through Brisbane 2032

The Brisbane 2032 Games are more than a global sporting moment — they're a catalyst for digital transformation across South East Queensland (SEQ).

The SEQ 2032 Digital Assembly, hosted by the Digital Built Forum, brings together leaders from government, industry, technology, and planning to shape the digital infrastructure, systems, and strategies that will drive long-term impact for SEQ.

Through bold ideas, deep collaboration, and future-focused discussions, this one-day event is your opportunity to engage with those defining the digital legacy for SEQ, through Brisbane 2032, and ensuring it delivers value long after the final medal is awarded.

AGENDA.

WHY ATTEND.

We are in the midst of a decade-defining chance to overhaul how SEQ plans, builds, and runs its cities and infrastructure using digital tools. The Assembly is a much-needed forum for our region-building leaders to gather, and align on action.

—— *Adam Beck*

Co-Founder, Digital Built Forum

Be in the Room

With only 100 seats available, this is a rare opportunity to be part of SEQ's only digital discussion to date. If you want to influence how technology drives infrastructure, investment, and liveability outcomes for Brisbane 2032 and beyond, you need to be in the room.

Connect Policy with Innovation

Join fellow decision-makers from government, industry, and tech to align digital ambition with real delivery. This is where infrastructure meets data, and policy meets practical impact.

Position Your Organisation as a Leader

From smart infrastructure to AI-driven operations, this is your chance to lead, partner, and invest in helping shape a decade-defining opportunity for the region.

JOIN LEADERS FROM GOVERNMENT, INDUSTRY, TECHNOLOGY, AND PLANNING SHAPING THE DIGITAL INFRASTRUCTURE, SYSTEMS, AND STRATEGIES THAT WILL DRIVE LONG-TERM IMPACT FOR SEQ.
